

HUA QUOC THINH, NGO (WILLIAMS NGO)

11 Rose Ln, Melbourne, VIC 3000 | 0421 971 279 | quocthinh231021@gmail.com | linkedin.com/in/hua-quoc-thinh-ngo-713b42232

TARGET ROLES: BUSINESS ANALYST / DATA ANALYST / BUSINESS INTELLIGENCE (GRADUATE / JUNIOR / INTERNSHIP)

PROFESSIONAL SUMMARY

Final-semester Master of Business Information Technology student at RMIT Melbourne with hands-on experience as an embedded Business Analyst in large-scale e-commerce operations and digital transformation. Skilled in eliciting and translating business requirements into BRDs, user stories, and AS-IS/TO-BE process flows, and in turning data into decisions through SQL, Power BI, Tableau, and Azure. Strong analytical and stakeholder-communication abilities, a data-modelling and KPI-reporting mindset, and Agile delivery experience. Seeking a Business Analyst / Data Analyst / Business Intelligence role where domain depth in retail, e-commerce, and supply chain meets modern BI tooling.

EDUCATION

RMIT UNIVERSITY

Master of Business, Information Technology

Melbourne, Australia

Feb 2025 - Feb 2027 (expected)

- GPA: 3.4/4.0 | Final semester.
- **Relevant Coursework:** Business Analytics, Business Systems Analysis and Design, Database Design and Development, Business Project Management, Machine Learning for Business Professionals, Modern Business Intelligence, Digital Strategy, IT Governance and Change in Digital Business, Digital Risk Management and Information Security.
- **Tools & Technologies:** SQL (MySQL), Power BI, Tableau & Tableau Prep, MS Azure ML, Apache Spark, Python (Pandas & NumPy in Google Colab & Jupyter), R, Figma, MS Visio, MS Project, Draw.io, MS Excel, Google Sheets.

RMIT UNIVERSITY

Bachelor of Logistics & Supply Chain Management (Minor: International Business & Digital Marketing)

Vietnam

Oct 2019 - Apr 2024

- Completed RMIT cross-campus exchange program in Melbourne (Feb – Jul 2023).

PROFESSIONAL EXPERIENCE

LOTTE MART

Online Operations Supervisor / Business Analyst (E-commerce)

Vietnam

Aug 2023 – Feb 2025

- Served as embedded Business Analyst supporting digital transformation across Order Management System (Magento), Delivery Management System (sync Magento), CRM (AnBuddy), All-in-one POS, and Web/App systems for 14 nationwide online stores.
- Elicited and translated business requirements from 40+ stakeholders (directors, store managers, customer service teams) into BRDs, user stories, and AS-IS/TO-BE process flows.
- Scaled daily order throughput 3x (from ~1,000 to ~3,000 orders/day) by designing and rolling out process-automation features (order payment & reconciliation, e-invoice, e-RMA, out-of-stock handling, 3PL driver allocation).
- Reduced total order errors by 9% through root-cause analysis of system KPIs and error logs, feeding data-driven process improvements.
- Halved order-processing time by streamlining OMS/DMS workflows and reducing manual handling.
- Built Power BI, Tableau Server, and Advanced Excel dashboards for KPI monitoring, enabling automated reporting and faster decision-making.
- Partnered cross-functionally with IT, Finance, and 3PL/payment partners (Grab Express, Lalamove, Ahamove, GHN, GHTK, ShopeePay, VNPAY, MoMo, ZaloPay) to resolve system integration and performance issues.
- Led pilot testing and UAT for new features; trained 300+ operational staff on new systems and processes.

THEA DELIGHT

Supply Chain Intern

Vietnam

Sep 2022 – Feb 2023

- Analysed inventory, sales, and logistics data to support KPI tracking and demand-supply planning.
- Coordinated inventory flow across suppliers, warehouse, and 3PL partners to align with category and budget plans.

KYANON DIGITAL

Business Development Intern

Vietnam

Mar 2022 – Sep 2022

- Supported the Mendix (low-code) sales pipeline and digitised client onboarding processes for agile businesses.
- Identified business leads and conducted opportunity assessments.

KEY PROJECTS

Business Intelligence & Data

- **Machine Learning - NYC Taxi (TLC) Demand Analysis | Microsoft Azure:** Built and evaluated machine-learning models on Azure using 2019 NYC TLC trip data; team solution was pitched to Microsoft and awarded the highest grade in the cohort.
- **TravelSpare (Airbnb) BI Dashboard | Tableau Prep, Tableau, AI Text Analysis:** Cleaned and modelled real Airbnb data via Tableau Prep and built an interactive Tableau dashboard, applying AI-assisted text analysis to solve a sentiment analysis problem.
- **"My Location" End-to-End BI Proposal | Prototype:** Designed an end-to-end BI solution and interactive prototype for a simulated real-estate company, covering data architecture, KPIs, and dashboard design.
- **"The Party Expert" Database Build | MySQL, Orange:** Designed and built a complete relational database from scratch for a simulated event-management company, including schema design, data population, and analysis.

Business Analysis & Delivery

- **OzResearch App — Requirements to Prototype | 3 Sprints:** Produced UML models, user stories, and AS-IS/TO-BE flows with a UAT plan, progressing from requirements to a working prototype across three sprints.
- **Software/System Deconstruction using UML (Individual Project):** Deconstructed a DataCamp system into UML models (use case, class, state-machine) to document its architecture and behaviour (awarded 50% weight).
- **Urban Future Research Centre — Project Proposal | MS Project:** Developed a full project plan with schedule and resourcing in MS Project, including Agile stand-ups and a Project Evaluation Report.
- **Indigenous Australian Income & Housing | Advanced Excel:** Developed a robust regression model predicting key factors, applying Confusion Matrix, and an optimization model to optimize resource allocation using Excel Solver.

Risk & Governance

- **Bluebird Advisory — Digital Risk Proposal:** Delivered a digital-risk analysis report with qualitative analysis, quantitative risk calculation, and treatment recommendations.
- **SafeLife HomeCare — Securing Smart Aged-Care Systems:** Research project developing a Business Continuity Plan (BCP) to address cybersecurity risks in IoT-enabled aged care.
- **Queensland Audit Office — ICT Governance and Change Management Proposal:** Applied COBIT 2019 to analyse the ICT governance system design, proposing a change management intervention and risk treatments.

TECHNICAL SKILLS

Business Analysis:	Requirements Gathering, BRD / SRS / FRS, User Stories, Process Mapping (AS-IS/TO-BE, P2P, O2C), UML (Use Case, Class, State Machine), UAT, SOP, Workflow Optimisation.
Business Intelligence & Data:	SQL (MySQL), Power BI, Tableau & Tableau Prep, Advanced Excel, Data Modelling, Dashboards & KPI Reporting, Microsoft Azure (ML), Apache Spark, Python (Colab & Jupyter Notebooks), R.
Project & Delivery:	Agile / Scrum, Jira, Confluence, MS Project, Visio, Lucidchart, Figma.
IT Governance & Risk:	COBIT 2019, ISO 38500, ISO/IEC 27001, NIST, GRP in IT Governance, Risk Matrix & Calculation, BRP.

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- Advanced Excel & Supply Chain Analysis
- Lean Six Sigma — White Belt
- ACCA F3 — Financial Accounting
- Export–Import Logistics with Incoterms 2020
- Introduction to Programming Using Python
- Microsoft Certificate of Achievement — Insightful presentation in designing and implementing effective data science solutions for business scenarios
- *In progress:* Microsoft Power BI (PL-300); Google × Kaggle 5-Day AI Hackathon; SAP

LEADERSHIP & ACTIVITIES

- Postgraduate Peer Mentor (Volunteer), RMIT Melbourne (Jun 2025 – Present)
- HR Manager, RMIT Analytics Club (150 members)
- R&D Member, RMIT Finance Club

REFEREES

References and recommendation letters available on request (RMIT lecturers and former LOTTE Mart division head).
